Island Green Living PICK UP Sites on St. John for Recyclable Single Use Plastics & Aluminum Cans

Through a collaboration between Island Green Living and VI Waste Management Authority (VIWMA) and in partnership with PADNOS, for the first time popular trash collection sites on St. John now feature specially marked receptacles where the public can conveniently deposit their RINSED recyclable #1, 2 & 5 plastics and aluminum cans. PLEASE do not deposit regular trash into the recycle bins.

The VIWMA sites that feature Island Green Living recycle bins are as follows:

Cruz Bay: Main VIWMA site across from EC Gas Station & Alfredo's Landscaping

Gifft Hill Road: VIWMA site just past Gifft Hill School

Coral Bay: Main VIWMA site across from Love City Mini Mart

Additionally the community can drop off at:

Island Green Living's ReSource Depot located behind VITEMA on Gifft Hill Road just off Centerline

Bin at **Caneel Bay Fuel Dock in Cruz Bay**

The community should lightly RINSE and sort plastic recyclables and aluminum cans from their other trash and bag plastic and aluminum together. Rinsed recyclables and caps, removed from bottles, should be placed in the bag. Most commonly used plastics have a resin code listed somewhere on the material, typically on the bottom. Island Green Living can accept #1, 2 and 5 plastics which include items such as water & soda bottles, some food containers, peanut butter jars, milk jugs, shampoo & detergent bottles, yogurt containers, etc. Styrofoam and items like plastic utensils, bags, etc. cannot be accepted.

Thank you for doing your part.
